GUSTAVO LARCO

Software Engineer • Data Analyst

gustavo.larcoj@gmail.com | 737-287-6304 | St Louis, MO | LinkedIn | GitHub | Portfolio

TECHNICAL SKILLS

Languages	C#, Python 3, JavaScript ES6+, TypeScript, SQL, HTML5, CSS
Frameworks	ASP.NET Core / .NET, React.js, Next.js, Django / Django REST, FastAPI, Node.js, Bootstrap
Cloud & DevOps	Microsoft Azure, AWS (S3, RDS, Elastic Beanstalk), Docker, CI/CD (GitHub Actions), Vercel
Data & Databases	Power BI / DAX, PostgreSQL, SQL Server, MongoDB, MySQL, Entity Framework Core
Tools	Git, Stripe API, SignalR, Figma, Agile / Scrum, Microservices, REST APIs, Domain-Driven Design

PROFESSIONAL EXPERIENCE

Simplicity Software | Software Engineer / Data Analyst **2025 – Present**

- Develop and maintain enterprise-level applications using C#, ASP.NET Core, and .NET for business clients
- Build interactive Power BI dashboards and reports using DAX to deliver data-driven insights for stakeholders
- Architect scalable backend services with Entity Framework Core and SQL Server, optimizing database performance
- Implement CI/CD pipelines with GitHub Actions and deploy applications to Microsoft Azure cloud infrastructure
- Collaborate cross-functionally following Agile methodologies to deliver features on schedule

Freelance | Full Stack Web Developer **2025 – Present**

- Designed and deployed 8+ responsive business websites for clients across industries including salons, restaurants, and retail
- Delivered SEO-optimized, mobile-first web solutions with custom animations, increasing client online visibility
- Managed full project lifecycle from client requirements gathering through deployment and maintenance

Amazon | Warehouse Associate • Coach Ambassador **Aug 2023 – Aug 2024**

- Boosted inventory efficiency by implementing Just-In-Time (JIT) categorization methods across warehouse operations
- Served as Amazon Coach Ambassador, training and mentoring team members on operational best practices

Marriott Aloft Hotel | Principal Customer Service **Feb 2022 – Aug 2023**

- Managed POS operations for bar and restaurant using LightSpeed OS, driving a 20% revenue increase
- Administered front desk operations including reservations, CC authorization, and guest services

PROJECTS

My-Negocio.com | JavaScript, Bootstrap, REST APIs **2025 – Present**

SaaS business management platform serving small businesses across Latin America

- Built multi-tenant platform supporting 4 business models: memberships, appointments, retail/POS, and restaurants
- Engineered customer management with payment tracking, attendance history, and real-time financial dashboards
- Developed smart scheduling engine with conflict prevention and WhatsApp automation for notifications
- Implemented integrated POS system with digital receipts, inventory management, and cash flow analytics

MyHotel | C#, ASP.NET Core, SignalR, Entity Framework **2026**

Real-time hotel management web application with live updates

- Architected MVC application with real-time communication via SignalR hubs for live booking updates
- Designed database schema with Entity Framework Core and automated CI/CD with GitHub Actions

EduTools | TypeScript, Next.js, Django, PostgreSQL, AWS, Stripe **2025**

Educational platform with tools and tutorials for university students

- Developed REST API with Django and PostgreSQL, integrated AWS S3 for storage and Stripe for payments
- Built responsive frontend with Next.js and TypeScript, deployed to Vercel and AWS Elastic Beanstalk

PostPump | Python, JavaScript, PostgreSQL, React **2024**

Fitness tracking application for workouts and program management

- Implemented 2FA and OAuth social login for secure access; optimized PostgreSQL schemas for performance

CarCar | Docker, FastAPI, Python, React, MongoDB **2024**

Car dealership management system for inventory, sales, and service

- Built backend tracking system for sales and inventory; containerized with Docker for consistent deployments

EDUCATION

Hack Reactor | Advanced Software Engineering Immersive Program **Jul 2024**

- 800+ hours of intensive Python and JavaScript training with Agile methodologies, pair programming, and team collaboration

Universidad Técnica de Machala | Environmental Engineering **Feb 2019**

LANGUAGES

Bilingual: English & Spanish (Native) | **Proficient:** Portuguese & Italian
